### 1 Description of 3-matic software

Materialise's 3-matic is a software that combines CAD tools with pre-processing (meshing) capabilities. To do this, it works on triangulated (STL) files which makes it suitable for freeform 3D data, like the anatomical data coming from the segmentation of medical images (from Mimics). As such, 3-matic can be seen as a tool that allows Anatomical CAD or what Materialise has coined 'Engineering on Anatomy'. The software comes in two editions: Research and Medical. The Medical edition can be used for the design or manufacturing of medical devices. The research edition is intended for research only.

3-matic may be used to import anatomical data and other 3D objects in STL format or in numerous CAD formats including: CATIA, IGES, STEP, etc. Once objects have been loaded, they can be used for many applications of 'Engineering on Anatomy' including measuring, designing, modeling and 3D printing.

The modules that can be obtained for 3-matic enable the users to do thorough 3D measurements and analyses, design an implant or surgical guide, or prepare the mesh for finite element modeling.

Quantity of content = 1.

### 2 Indications for use

3-matic Medical (hereafter '3-matic') is intended for use as software for computer assisted design and manufacturing of medical exo- and endo-prostheses, patient specific medical and dental/orthodontic accessories and dental restorations.

# 3 Warnings and recommendations

3-matic software should only be used by trained professionals. We recommend that all users participate in a training offered by a Materialise expert for best results.

As stipulated in the End User License Agreement, Materialise warrants during the Warranty Period that 3-matic shall operate substantially in accordance with the functional specifications in the Documentation. Any other warranty, whether express or implied, including but not limited to any warranty regarding fitness for purpose, safety, performance or effectiveness aspects of the medical application or device for which 3-matic is used, is disclaimed.

3-matic displays measurements with 4 digits behind the decimal point. Accuracy of measurements is limited by the data source.

Storage condition: no specific storage condition applicable for software.

# 4 Best-practice tips and precautions

Be advised that the quality and resolution of your triangle mesh can influence the result of design or analysis operations. For best results, we recommend that industry standards are referenced and followed.

### 5 Instructions for use

#### 5.1. Starting 3-matic

After installing the software on your PC, double click the 3-matic icon for the **Research** or **Medical** edition on your desktop. You may also click on the **Start Button** → **All Programs** → **Materialise** → **3-matic** to begin. Be sure to select the *Medical edition* for clinical applications.

Materialise software is protected by a key file. When you start 3-matic for the first time or when your key has expired, the Key Request Wizard will automatically start up to assist you with the registration process. Available options are explained in the **Reference Guide**. We recommend that you select 'instant activation' in the Key Request Wizard. This will automatically renew your license Key File when it expires as long as you have internet access\*.

#### 5.2. Minimum system requirements

Software	Hardware
Windows® 7 SP1 – 64bit	Intel® Core™ 2 Duo / AMD Athlon™ X2 AM2 or equivalent
Internet Explorer® 10	4 GB RAM
PDF viewer	DirectX® 11.0 compliant graphics card with 1 GB RAM
.NET framework 4.5.2 (or higher)	5 GB free hard disk space
	Resolution of 1280x1024

Note: Mac® users can install the MIS using Boot Camp® in combination with a supported Windows OS.

#### 5.3. Preferred system requirements

Software	Hardware
Windows® 7 SP1 – 64bit	Third generation Intel® Core™ i5/i7 or equivalent
Internet Explorer® 10	16 GB RAM
PDF viewer	DirectX® 11.0 compliant AMD Radeon/NVIDIA® GeForce® card with 2 GB RAM
.NET framework 4.5.2 (or higher)	20 GB free hard disk space
	Resolution of 1680x1050 or higher

<sup>\*</sup>Other qualifications may apply.

It is recommended to use our software within a hardware and/or network environment in which cyber security controls have been implemented including anti-virus and use of firewall.

## 6 Manufacturer contact details

### Manufactured in May 2018 by:

Materialise NV
Technologielaan 15
3001 Leuven, Belgium
Phone: +32 16 39 66 11

http://www.materialise.com

CE  $_{0120}$  3-matic Medical is a CE-marked product.

#### Australian Sponsor:

Emergo Australia; Level 20, Tower II Darling Park; 201 Sussex Street; Sydney NSW 2000; Australia Thai sponsor:

Mursmedic Thailand, 1687/1 Phahon 19 Building, Phahonyothin Road, Chatuchak, Chatuchak, Bangkok 10900, Thailand
